**Service:**

McKillican can provide you with all your green forest product needs. Our product experts are available to answer any questions you may have regarding this product or any other, as well as LEED® requirements.

**Species Options:**

**Western Hem Fir:**

This product originates from the Pacific Northwest and Northern California. It is produced as kiln dried, S4S, and graded under NLGA rules. All lumber is grade stamped and is stocked in sizes from 2x4-2x12 and in lengths 8'-20'.

**Douglas Fir:**

Panel Source offers both Kiln Dried and S-Green in common dimensional framing sizes and as large scale rough or S4S timbers and beams. From 2x3-12x16 FSC Douglas Fir is available from Panel Source. Material is graded under NLGA.

**Western Red Cedar:**

Panel Source offers a wide variety of grades. Check with your Panel Source representative for further pricing, grades and availability.

**Grade Options:**

**Western Hem Fir:**

2x4 Std&Btr (NLGA)  
2x4-2x12 2&Btr (NLGA)  
2x6-2x10 1&Btr Appearance Grade (proprietary)  
2x6-2x12 2&Btr (NLGA)

**Douglas Fir:**

2x6-2x12 2&Btr (NLGA)  
2x6-12x16 Resawn Select Texture (proprietary)
